## ABOUT MEMOBOTS GAMES

## ABOUT THE FOUNDER

My name is Cezary Kujawa and I am the creative mind and developer behind Memobots Games. I always loved to create. Whether it was a professional career as a developer, manager and leader, a side hobby in leatherworking or ultra runs, each area I touched, I always asked myself: What could I create here ?

As a one-person team, I wear many hats: from coding to storytelling to graphical and sound design - bringing each element of the creation to life with dedication and care with the love of creation as the foundation.

Memobots Games reflects the vision of creating games that are as fun to play as they are meaningful to experience.
